**Chairman**

**A.Kussainov**

Approved  
by the Order of the Chairman of the Committee  
on Technical Regulating and Metrology under the Ministry  
of Industry and Trade of the Republic of Kazakhstan  
No. 136 of 13 May, 2005

#### **Regulations on conducting works with participation of the state authorities, technical committees on standardization and the conformity assessment bodies in the field of conformity assessment and accreditation**

These Regulations were elaborated in accordance with Article 7 of the Law of the Republic of Kazakhstan “On Technical Regulating” and establish the interaction of the state authorities, technical committees on standardization and the conformity assessment bodies at conducting works in the field of conformity assessment and accreditation.

### **1. General provisions**

1. In these Regulations the following main terms are used:
  - 1) accreditation – procedure by means of which the accreditation agency officially validates the authority of a juridical person to perform works in certain filed on the assessment of conformity of the objects of technical regulating with the established requirements;
  - 2) conformity assessment bodies – organizations irrespective of their form of ownership, being independent of the manufacturers (contractors) of the products, services,

suppliers and consumers of the products, services, having the conformity assessment experts-auditors on the staff and (or) laboratories in the assigned lines of activities accredited in accordance with the procedure established by the Government of the Republic of Kazakhstan;

3) conformity assessment – procedure resulting in a documentary certification (in the form of the conformity declaration or the certificate of conformity) of the conformity of an object with the requirements established by the normative legal acts in the field of technical regulating, by the standards or the terms of the treaties;

4) schedule of the conformity assessment – methods of establishing the conformity of an object with the requirements established by the normative legal acts in the field of technical regulating, by the standards or the treaties with the description of the specific stages of conducting that work (testing, the production evaluation, quality management system evaluation, the analysis of the normative and technical documentation and others);

5) technical committee on standardization – advisory-consultative agency to be established in the branches of the economics on a voluntary basis for the purpose of elaboration of standards and participation in establishment of the state system of technical regulating by the assigned objects of standardization or the lines of activities;

6) authorized agency – governmental body authorized by the legislation of the Republic of Kazakhstan to govern, control and supervise the works in the field of technical regulating and to represent the Republic of Kazakhstan in the international and regional organizations in the issues of standardization, conformity assessment and accreditation.

2. The interaction of the state authorities, the technical committees on standardization and the conformity assessment bodies at conducting works in the field of the conformity assessment and accreditation shall be based on the following principles:

1) the unity and integrity of the state system of technical regulating and the regulations of the conformity assessment;

2) the impermissibility of the combination of the accreditation and conformity assessment authorities by one body;

3) the incompatibility of the state control and the conformity assessment functions by one state authority;

4) the independence of the conformity assessment bodies from the manufacturers (contractors), the sellers and the buyers.
