# I-TIP Goods goals

- **One stop shop for ALL** trade policy measures
- Full **free** public access
- **Structured information** using uniform codes
- **Link** to original notifications and/or **official sources**
- Broad-based cross-cutting **overview**  
and detailed **drill down:**
  - By measure, country, product, time period

# I-TIP Goods Status – October 2013

- **Flexible user-friendly interface**
  - **3 types of views + advanced query function**
- **Covering the following NTM notifications:**

# Information elements by measure

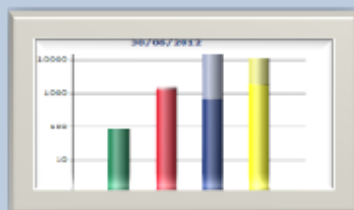

- NTM category
  - Notification requirement, & Interagency NTM classification code
- Member reporting/implementing NTM
- Partner(s) affected [MFN or country-specific]
- Product descriptions and (if available) HS codes
- Measure description (in brief, as provided)
- Dates / Timeline
  - initiation, in force, withdrawal

## I-TIP Goods: Integrated analysis and retrieval of notified non-tariff measures

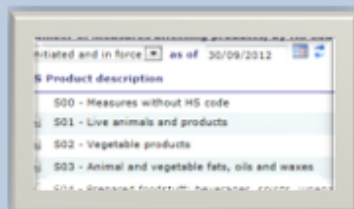

I-TIP Goods provides comprehensive information on non-tariff measures (NTMs) applied by WTO members in merchandise trade. The information includes members' notifications of NTMs as well as information on "specific trade concerns" raised by members at WTO committee meetings. Its aim is to serve the needs of those seeking detailed information on trade policy measures as well as those looking for summary information. It includes links to the WTO's extensive tariff and trade databases, and to DocsOnLine system.

Choose one of the following options:

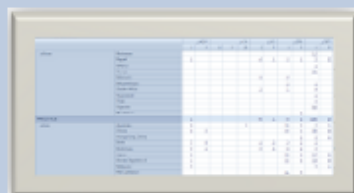

### GRAPHS over TIME

- You can see and select the flows or the stock of Non-Tariff Measures (NTMs), in-force or initiated by type of measure.
- See individual measures by simply clicking on any bar in the graphs!
- This option does not allow affected-country or product selection

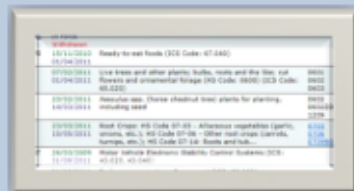

### TABLES by PRODUCTS

- Look at the incidence of NTMs by HS sections and chapters, and by country imposing the measure.
- See individual measures by simply clicking on any number in the tables!
- This option does not allow affected country selection.

### TABLES by MEMBERS

- Look at the incidence of NTMs by WTO member and geographical regions.
- See individual measures by simply clicking on any number in the tables!

### DETAILED QUERY

- Select any combination of the five criteria: type of NTM, dates, country imposing, country affected, and product. Get tabular listing of NTMs.
- Drill down for additional details.
- Export summary and detailed NTM information.

Through any of the four options above you can obtain a summary table with measures by country and type of measure; by drilling-down you will find a table with detailed information of individual measures, where, through links, you can get the notified documents, and the trade and tariffs relevant to each measure. You can export data at the summary or at the detailed level.

### WHAT IS AVAILABE NOW

- NEW! Safeguards information!
- TBT and SPS data are fully synchronized with their respective online reporting systems; same than Specific Trade Concerns (STC) data.
- Antidumping and Countervailing measures cover all measures initiated and/or with final duties in force as of 2001

### To be added in 2013

- Import licensing
- Quantitative restrictions
- Agricultural notifications

# Road Map 2014

- Improve **data quality**:
  - Review & standardize notification information in databases
- Improve **data entry and administration**
- Include **additional NTM** notifications such as:
  - Import licensing, Quantitative restrictions, Agricultural notifications
- Progressively improve **I-TIP analytics**:
  - Keyword based search
  - Improved graphics functions
- Enhance interagency cooperation to fill information gaps
