

**Organised by:** UNCTAD, jointly with CityUHK

**Session Type:** Panel Discussions

## Session Title

Empowering Tomorrow: Uniting for Sustainable Education and Climate Action

## Session Description

This session introduces a holistic educational model for environmental preservation and climate innovation, emphasizing Experiential Learning, Curriculum Integration, and Symbiotic Development. Students engage in cross-sector experiential learning, including interactive activities and community collaborations. The curriculum integrates sustainability principles across disciplines and incorporates eco-friendly facilities. Symbiotic development focuses on partnerships for a sustainable campus culture. Practical strategies and case studies are shared to empower participants to implement sustainable practices, fostering a culture of sustainability within educational settings for a positive impact on students and the community.
