

Organised by: ITC

Session Type: Stakeholders' dialogue

Session Title

Innovation, Leadership and Partnerships for Climate Action

Session Description

At COP 29, the global community will come together to showcase innovation, leadership, and partnerships that drive collective action towards ambitious climate goals. This event will highlight leaders who are spearheading systemic change, focusing on key areas such as climate finance, renewable energy, sustainable trade, and resilient value chains. By emphasizing the importance of collaborative approaches, this session will demonstrate how innovative solutions and partnerships are essential for delivering on global climate commitments. The event will underscore how visionary leadership is accelerating the transition to a low-carbon economy, empowering MSMEs, and ensuring inclusive, sustainable growth to meet the 1.5°C target.
