

Organised by: COP29 Presidency, WTO, UNCTAD, ITC, ICC

Session Type: Experience Sharing

Session Title

Policy Experiences Contributing to Climate FIT Action – Ministerial-Level Event

Session Description

This signature trade-focused Ministerial-level event, celebrating the Climate Finance, Investment and Trade (FIT) Day, will set the example for COP29 participants demonstrating solutions and ways to use trade and trade tools to leverage climate finance and investment, including directly targeting MSMEs and prioritizing the most vulnerable, helping to ramp up ambition and implementation in the new wave of climate plans. Organized around a series of best practices and positive experiences shared by Leaders already integrating "climate FIT" trade considerations into their policies, the session will help inspire and illustrate what trade action can and is already being taken to help ensure a just transition and achieving the Paris Agreement goals.

Proposed Speakers and Moderator

- Ngozi Okonjo-Iweala, Director General, WTO
- Rebeca Grynspan, Secretary-General, UNCTAD
- Pamela Coke-Hamilton, Executive Director, ITC
- Phillipe Varin, Chair, ICC
- Invited Ministers of Trade, Environment or Foreign Affairs share their experiences
