I-TIP Goods goals

- **One stop shop for ALL** trade policy measure notifications
- **Full free public online access**
<http://i-tip.wto.org/goods>
- **Structured information** using uniform codes
- **Link** to original notifications and/or **official sources** (synchronized with SPS/TBT IMS)
- Broad-based cross-cutting **overview** and detailed **drill down**:
 - By measure, country, product, time period

I-TIP Goods: Integrated analysis and retrieval of notified non-tariff measures

I-TIP Goods provides comprehensive information on non-tariff measures (NTMs) applied by WTO members in merchandise trade. The information includes members' notifications of NTMs as well as information on "specific trade concerns" raised by members at WTO committee meetings. Its aim is to serve the needs of those seeking detailed information on trade policy measures as well as those looking for summary information. It includes links to the WTO's extensive tariff and trade databases, and to the Online system.

Choose one of the following options:

- GRAPHS over TIME**
 - You can see and select stocks or flows of Non-Tariff Measures (NTMs), by type of measure.
 - See individual measures by simply clicking on any bar in the graphs!
 - This option does not allow the selection of country or product affected.
- TABLES by PRODUCTS**
 - Look at the incidence of NTMs by HS sections and chapters, and by country imposing the measure.
 - See individual measures by simply clicking on any number in the tables!
 - This option does not allow a selection of products.
- TABLES by MEMBERS**
 - Look at the incidence of NTMs by WTO member and geographical regions.
 - See individual measures by simply clicking on any number in the tables!
- DETAILED QUERY**
 - Select any combination of the five criteria: type of NTM, dates, country imposing, country affected, and product. Get tabular listing of NTMs.
 - Drill down for additional details.
 - Export summary and detailed NTM information.

WHAT IS AVAILABLE NOW

- NEW! Most of Non-Tariff Measures (NTMs) are now included in I-TIP: Trade defence measures, technical measures and their Specific Trade Concerns (STCs), Quantitative Restrictions, the NTMs from the Agreement on Agriculture and information on Import Licensing; in few months, information on Rules of Origin and Preshipment Inspection will also be available.
- TBT and SPS data are fully synchronized with their respective online reporting systems; same than Specific Trade Concerns (STC) data.
- Antidumping and Countervailing measures cover all measures initiated and/or with final duties in force as of 2001.

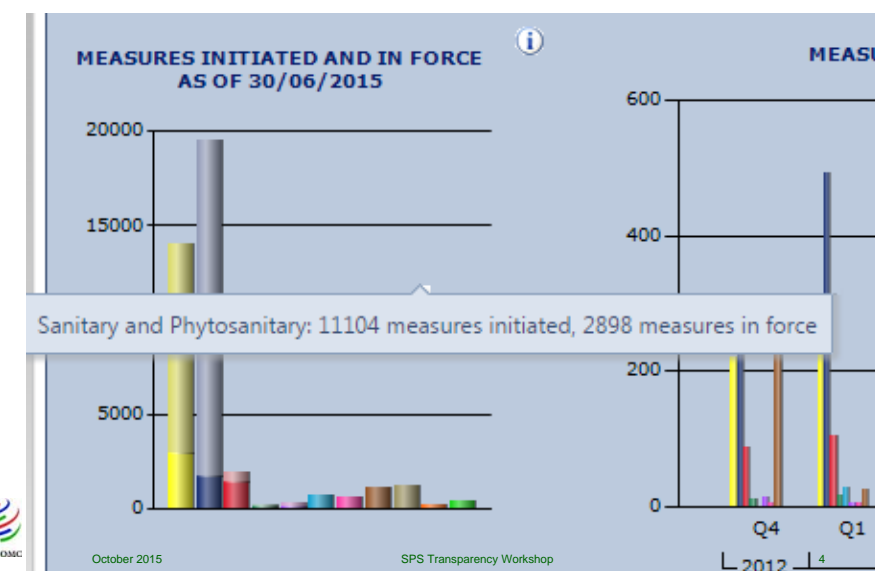

To be added

- Rules of Origin (October 2015)
- Preshipment Inspection (October 2015)
- Import Licences (done!)
- Quantitative Restrictions (done!)
- Agricultural Notifications (done!)

Contact us: i-tip@wto.org
Version: 1.4

Through any of the four options above you obtain a summary table with measures by country and type of measure; by drilling-down you will find a table with detailed information of individual measures, where, through links, you can get the notified documents, and the trade and tariffs relevant to each measure. You can export data at the summary

What is the main purpose of using I-TIP for SPS measures

- See **SPS** measures in the context of other tariff and NTM measures (as notified to WTO)
- Facilities for **detailed filtering, viewing & download**
- Identify SPS measures already implemented and/or submitted for comments
- **Overview, crosscutting** and **detailed drill down** to notification documents

Thank you
