

INFORMATION SESSION ON IEA REPORT ON EMISSIONS MEASUREMENT AND DATA COLLECTION FOR A NET ZERO STEEL INDUSTRY

Organized by The United Kingdom/WTO Secretariat

14 June 2023 09:30-11:00 CET

The event will be held on YouTube and in Room D at the WTO Premises

Abstract:

As a follow up to the [Trade Forum for Decarbonization Standards](#) on promoting coherence and transparency in the steel sector, the United Kingdom and the WTO Secretariat are co-hosting the International Energy Agency (IEA) for an information session for WTO Members on the recent IEA report [Emissions Measurement and Data Collection for a Net Zero Steel Industry](#), prepared for the G7. The IEA will present its analysis of existing emissions measurement methodologies and data collection frameworks in the sector and its recommendations for accelerating the net zero transition in the steel sector. WTO Members will share their respective experiences and views on the issues raised in the report. The discussion will explore the importance of promoting science-based, inclusive, and globally relevant standards for decarbonization, and ensuring synergies with strategic dialogue in the context of the [Breakthrough Agenda on steel](#).

Panel:

Speakers

Opening Remarks:

- **Aik Hoe Lim**, Director, Trade and Environment Division, WTO

Keynote Presentation:

- **Will Hall**, Clean Energy Technology Analyst, IEA
